

PROGRAM OVERVIEW

Earning a bachelor of science in civil engineering is the start of a long and successful career. Given the increase in population, the continuing development of second- and third-world countries and the eventual degradation of city infrastructure, civil engineers will always be in demand. A degree in civil engineering opens the door to many areas of study including transportation and highways, hydrology and wastewater systems, structures and bridges, environmental and sustainability issues, and geotechnical and earth design.

ACADEMIC ADVISING

Advisor: Pam Mettler
 Email: pam.mettler@ucdenver.edu
 Office Location: 1200 Larimer Street, Suite 3037, Denver, CO 80204
 Drop-in hours: Monday through Thursday, 3:00-4:00 <https://ucdenver.zoom.us/j/92397284364>

GRADUATION REQUIREMENTS & POLICIES

All CU Denver Engineering students are required to complete the following minimum general graduation requirements:

1. Complete a minimum of 130 semester hours.
2. Achieve a minimum 2.0 CU cumulative grade point average (GPA).
3. Complete all college and major requirements.
4. Residency: complete a minimum of 30 CU Denver hours in good standing at CU Denver.
5. Terminal Residency: complete at least the final two semesters as an enrolled CEAS student

PROGRAM REQUIREMENTS & POLICIES

Students are responsible for meeting with the faculty advisor in their department to confirm major requirements. Students completing the Civil Engineering B.S. Degree are required to complete the following minimum program requirements:

1. Complete 24 semester hours of **CU Denver Core Curriculum coursework**.
2. Complete 33 semester hours of Math, Chemistry, and Physics.
3. Take the Fundamentals of Engineering exam prior to graduation.
4. Achieve a minimum 2.0 CU cumulative grade point average (GPA) in all CVEN courses.

Design Electives – Select 4 courses	12	See catalog for complete list of design course options
Technical Electives – Select 3	9	Any 4000-level or higher CVEN or CEMT courses. Other math, science, or engineering courses may be allowed with advisor approval.

SAMPLE ACADEMIC PLAN OF STUDY

The following academic plan is a *sample* pathway to completing degree requirements for this major. Students should tailor this plan based on previously completed college coursework (e.g., AP, IB, CLEP, dual/concurrent enrollment, and transfer credit), course availability, and individual preferences related to course load, schedules, or add-on programs such as minors or double-majors. **Students deviating from this plan must fulfill course prerequisites and must meet with the faculty advisor in their department to confirm degree requirements.**
