

## SCHOLARSHIP OPPORTUNITIES Academic Year 2025-2026

**Application Period: Open through March 31, 2025**

**Applications should be made via the Scholarship Universe link in your Lynx portal. The portal is designed to show you the scholarships for which you meet the eligibility criteria.**

- 
- **Achievement Rewards for College Scientists (ARCS) Foundation Scholarship** – available to U.S. citizens studying to complete degrees in science, engineering and medical research. Applicants must have achieved sophomore, junior, senior or graduate standing by the start of the upcoming academic year with a 3.5 GPA or higher. Applicants must be enrolled full-time, prepared to complete a full academic year of study, and demonstrate financial need.
  - **Akram and Samar Atallah Scholarship** – available to undergraduate students enrolled in undergraduate engineering programs. Applicants must demonstrate financial need. Preference given to first-generation college students.
  - **Andrew and Nancy Sokal Engineering Scholarship** – available to undergraduate students. Applicants must have in-state residency status for tuition purposes and be enrolled in six (6) or more credit hours per semester with a 2.5 GPA or higher. Applicants must demonstrate financial need.
  - **Associated General Contractors of Colorado Endowed Scholarship** – provides undergraduate and graduate awards with a preference to students pursuing a degree in construction management or construction engineering and management.
  - **Bernie Hoczur Scholarship** – available to undergraduate students. Applicants must have in-state residency status for tuition purposes and be enrolled in six (6) or more credit hours per semester with a 3.0 GPA or higher. Applicants must demonstrate strong communication skills, an appreciation for the arts and a commitment to service to the community.
  - **Clifford G. Ludeman, PhD, Endowed Bioengineering Scholarship in Women's Health**-The Clifford G. Ludeman, PhD, Endowed Bioengineering Scholarship in Women's Health will support one undergraduate student annually with a scholarship award of \$10,000 per academic year. This scholarship can be used towards tuition, books, fees and/or living expenses. Eligible applicants must have completed BIOE 2020 (or are currently enrolled in this course) at the University of Colorado Denver or Anschutz Medical Campus, have a GPA of 3.0 or higher, demonstrate financial need and be a United States citizen or a permanent legal resident. This scholarship is intended for an upper division student. Dependent upon performance, the scholarship may include the option to renew for an additional academic year. Eligible students must be studying full-time on campus during the scholarship year; those participating in study abroad programs during the scholarship year are not eligible. Scholarship application materials include submission of an: 1) application form; 2) resume; 3) brief narrative statements on professional goals, interest in bioengineering, interest or involvement in women's health and/or sex differences research, and financial need; 4) two letters of recommendation; and 5) a college transcript. This scholarship application can be found by asking the Undergraduate Bioengineering advising office.
  - **Christopher M. Utz Memorial Scholarship** – available to undergraduate and graduate students enrolled in the mechanical engineering degree program.
  - **Cina C. Saliba Memorial Scholarship** – available to undergraduate and graduate students majoring in Engineering at the University of Colorado Denver or enrolled at the University of Colorado Anschutz Medical Campus with a career GPA of 3.0 or higher. Preference given to students engaging in cancer research, specifically pancreatic cancer. Financial need will also be considered. Students impacted by cancer through an immediate family member are encouraged to apply. NOTE: Applications to this scholarship are only accepted through OnBase at [www.ucdenver.edu/saliba](http://www.ucdenver.edu/saliba) .
  - **Civil Engineering Faculty Scholarship** – available to undergraduate and graduate students in the civil engineering program. Applicants must have in-state residency status and be enrolled in three (3) or more credit hours per semester. Undergraduate students must possess a 2.5 GPA or higher. Graduate students must possess a 3.0 GPA or higher.
  - **Clarence M. LeGuardia Scholarship** – available to undergraduate and graduate students. First preference given to

- **Douglas K. and Sandra L. Tashiro Engineering Tutor Award** – designed to provide an interactive and collaborative educational experience for engineering students and promote academic success through peer tutoring. Award recipients will tutor engineering and pre-engineering undergraduate students and assist them with study strategies, organization of materials, critical thinking skills, and course content comprehension. Applicants must be undergraduate students in junior or senior standing or a graduate students actively enrolled in an engineering degree program; have a minimum overall GPA of 3.0 and a minimum GPA of 3.5 in the subject area(s) interested in tutoring; be recommended by two CU Denver professors/instructors teaching in the discipline area you are wishing to tutor; and be prepared to meet training and tutoring service obligations. Applicants will be required to upload a complete application packet including application, references, and essay.
- **Dr. John R. Mays Endowed Scholarship Fund in Civil Engineering** – available to juniors and seniors enrolled in Civil Engineering who have a minimum 3.0 GPA.
- **Engineering Dean's Scholarship** – available to undergraduate students who demonstrate participation and leadership in on- and off-campus activities such as student chapters of professional organizations, honorary organizations, community work, and civic or professional organizations. Applicants must possess a 2.5 GPA or higher for at least 24 credit hours completed at CU Denver.
- **Engineering Leadership Council Scholarship** – available to undergraduate students enrolled full-time (at least 12 credits) and in good academic standing with a 2.0 GPA or higher. Deadline is June 1.
- **FABRIC Scholarship Fund by The Receptionist** software company – available undergraduate juniors and seniors enrolled in Computer Science. Preference given to those who have demonstrated interest in equality, diversity or social justice by participating in community activities, social groups, student clubs or organizations that support this focus. The Receptionist values include Fun, Authentic, Bold, Respectful, Innovative and Collaborative.
- **Gary and Kathy Meggison Construction Engineering Management Scholarship** – available to undergraduate students enrolled in the Undergraduate Construction Engineering Management Minor at CU Denver. Preference given to first-generation college students who graduated from a U.S. high school.
- **Grover W. Hall, Jr. Memorial Scholarship** – available to incoming or current undergraduate students. Applicants must be in good academic standing and demonstrate financial need. Preference given to first-generation college students.
- **Helen S. and Charles W. Lerch Scholarship** – available to undergraduate students. Applicants must have in-state residency status for tuition purposes and be enrolled in six (6) or more credits per semester. Applicants must maintain a 2.5 GPA or higher and demonstrate financial need.
- **Jacques I. Pankove Engineering Scholarship** – available to undergraduate and graduate students. Applicants must demonstrate the capacity to be creative and the ability to enlarge the world with new ideas.
- **John D. and Mercedes L. Peebles Scholarship** – available to undergraduate students.
- **Knott Family Scholarship** – available to undergraduate and graduate students. Applicants must demonstrate scholastic ability and financial need.
- **Mieczyslaw Altman Endowed Scholarship** – available to graduate students enrolled in the Ph.D. degree in computer science. Applicants must demonstrate excellence in academic achievement.
- **R. Kirk Brogden Scholarship** – available to undergraduate students who demonstrate high intelligence, strength in character, optimism and outstanding aptitude as evidenced by high SAT/ACT scores, percentile ranking in high school class, extracurricular activities and leadership roles. Applicants must possess a 3.0 GPA or higher and demonstrate financial need. First preference given to students enrolled in the mechanical engineering program; however, other well-qualified students may also be considered.
- **Ray Family Endowed Scholarship**-available to new or returning undergraduate students enrolled in the College of Engineering, Design and Computing. Eligible students must have a minimum 2.8 GPA. Scholarships will be awarded for one academic year and are renewable based on criteria established by the University.
- **Raytheon Scholarship** – available to undergraduate students majoring in electrical engineering or computer science. Applicants must qualify for in-state tuition and be enrolled in six (6) or more credit hours per semester with a 3.0 GPA or higher. Applicants must have completed 60 hours of coursework that applies toward their

degree and demonstrate financial need. Preference given to students transferring from the Community College of Aurora.

- **Richard E. Dakin Cybersecurity Scholarship Fund** – available to students pursuing a degree in cybersecurity.
- **Terry A. Fischer Scholarship** – available to undergraduate and graduate students majoring in electrical engineering or computer science. Applicants must qualify for Colorado in-state tuition and be enrolled in six (6) or more credit hours per semester. Undergraduate students must possess a 2.75 GPA or higher. Graduate students must possess a 3.75 GPA or higher. Applicants must demonstrate a professional attitude and high standards of moral, legal and ethical behavior; be active members of at least one professional organization; and be likely to continue a positive lifetime involvement with CU Denver.
- **Theofanis G. Gavrilis Scholarship** – available to undergraduate and graduate students majoring in electrical engineering or computer science. Applicants must qualify for Colorado in-state tuition and be enrolled in six (6) or more credit hours per semester. Undergraduate students must possess a 2.75 GPA or higher. Graduate students must possess a 3.75 GPA or higher. Applicants must demonstrate a professional attitude and high standards of moral, legal and ethical behavior; be active members of at least one professional organization; and be likely to continue a positive lifetime involvement with CU Denver.
- **Tom and Becky Arnberg Scholarship** – available to undergraduate mechanical engineering students who have achieved junior or senior standing with a 3.0 GPA or higher. Applicants must demonstrate leadership skills through involvement and achievement in student, community and/or Department of Mechanical Engineering activities.
- **Tullis Society of Women Engineers Scholarship Fund**- available to undergraduate engineering students with preference given to students who are members of the Society of Women Engineers.
- **Trimble Construction Engineering and Management Scholarship Fund** – available to undergraduate students in the Construction Engineering Management program.
- **William J. O'Hare Scholarship** – available to undergraduate students majoring in civil engineering. Applicants must have in-state residency status for tuition purposes and be enrolled in six (6) or more credit hours per semester with a 2.5 GPA or higher.
